## Popular accessory for your ID.3 1ST

### **Transport tie**

With the transport bracket for your ID.3 1ST you can use bicycle carrier and other transport solutions designed for mounting on the trailer bracket. Maximum load is 60 kg.

Unfortunately, the delivery situation for the transport bracket is uncertain because the supplier is affected by the shutdown in connection with the pandemic Covid-19.

## **Bike Mount**

ID.3 1ST comes with the possibility of a transport bracket that can be used for eg. Bike Mount. Here we offer lightweight and compact bike racks that are specially tested and adapted to ID.3 1ST. Everything to keep you safe while carrying the bikes you want.

## Load Holder

We offer various load holders that can be mounted on the transport bracket to ID.3 1ST. These cargo holders make it easy for you to carry the equipment you need and are of course well adapted to the car.

## **Ski bag**

Do you want to carry skis or long items? Then this ski bag customized to ID.3 1ST is perfect for you. The ski bag is practical and sturdy, ensures a secure transport of skis inside the car, and fits up to four pairs of skis including rods. The ski bag is securely secured in the car's center seat belt attachment.

### **USB-C charging cable for mobile phone**

Volkswagen premium USB cable is specially designed for connecting mobile phones or other devices to Volkswagen's infotainment systems for use with Apple CarPlay, AppConnect or charging only. The short length (30cm) prevents the cable from lying in the road.

## Home Charger

It is important that charging of ID.3 1ST takes place in a safe and secure manner. Therefore, we offer the following charging solutions for home charging from DEFA;

DEFA eRange Uno

DEFA eRange IQ

DEFA eRange Duo

The charging boxes will have different functionality according to your wishes, needs and capacity in the mains at your home.
